

# Contents

Preface .....	viii-xiii
Acknowledgements .....	xiv
Notes to Students and Teachers .....	xvi
Additional RIP Resources .....	xvii-xviii
Addressing Benchmarks for Science Literacy and the National Standards .....	xx-xxi
<b>UNIT 1: Introduction to this Book.....</b>	<b>1</b>
Chapter 1: The Science Education Movement.....	2-7
Chapter 2: Research Investigation Process: RIP™ .....	8-12
Chapter 3: Developing a Research Investigation Program for Your Students.....	13
<b>UNIT 2: Research Investigation Process: Introduction Section.....</b>	<b>15</b>
Chapter 4: Making Observations.....	16-21
Chapter 5: Formulating and Posing Research Questions.....	22-23
Chapter 6: Gathering Background Information.....	24-35
Chapter 7: Constructing a Hypothesis.....	36-43
<b>UNIT 3: Research Investigation Process: Method Section.....</b>	<b>45</b>
Chapter 8: Subjects.....	47
8-1: Choosing the Subjects.....	48-54
8-2: Random Sampling.....	55-63
8-3: Other Sampling Techniques Using Random Selection.....	64-71
8-4: Sample Size.....	72-77
Chapter 9: Levels of Measurement.....	78-82
Chapter 10: Validity and Ethics in Research Investigations.....	83
10-1: Techniques to Insure Validity of the Research Investigation Study.....	84-94
10-2: Ethics and Treatment of Subjects in a Research Investigation Study.....	95-102

Chapter 11:	Creation of a Research Study Design.....	103
11-1:	Comparing Groups: Experiments and Ex Post Facto Studies.....	104-110
11-2:	Research Study Design.....	111-124
11-3:	Measurement of Characteristics: Gathering Data about Beliefs, Attitudes, Opinions and Facts.....	125-136
Chapter 12:	Materials.....	137-138
Chapter 13:	Procedure: Steps in Conducting the Study.....	139-141
Chapter 14:	Statistical Hypotheses.....	142
14-1:	General Considerations.....	143-144
14-2:	Making Decisions: Null and Alternative Hypotheses.....	145-158
14-3:	Directional and Non-Directional Hypotheses and One- and Two-Tailed Tests.....	159-162
14-4:	Significant and Statistically Significant.....	163-170
<b>UNIT 4:</b>	<b>Research Investigation Process: Results Section.....</b>	<b>172</b>
Chapter 15:	Data Collection.....	173
15-1:	Quantitative and Qualitative Data.....	174-176
15-2:	Collecting, Organizing, and Presenting Data with Tables.....	177-186
15-3:	Presenting Data with Graphs.....	187-209
Chapter 16:	Data Analysis.....	210
16-1:	Critical Ratio in Statistical Decision Making.....	211
16-2:	Correlation Coefficient ( $r$ ): Testing for Relationships.....	212-226
16-3:	Chi-Square ( $\chi^2$ ) Test for Goodness of Fit.....	227-233
16-4:	Chi-Square ( $\chi^2$ ) Test for Independence.....	234-245
16-5:	$t$ -Test: Comparing Two Independent Groups.....	246-258
16-6:	$t$ -Test: Comparing Two Dependent Groups.....	259-271

<b>UNIT 5:</b>	<b>Research Investigation Process: Discussion and Conclusion Section.....</b>	<b>273</b>
Chapter 17:	Discussing the Results and Making Conclusions.....	274-283
<b>UNIT 6:</b>	<b>Research Investigation Process: Next Step Section.....</b>	<b>285</b>
Chapter 18:	Next Step.....	286
18-1:	The Next Step: Developing an Action Plan.....	287-289
18-2:	Guidelines for Constructing a Poster for Scientific Conferences and Research Competitions.....	290-304
Chapter 19:	Pulling It Together.....	305
19-1:	The Research Proposal and Assessment.....	306-313
19-2:	Sample Research Proposal.....	314-330
<b>Glossary.....</b>		<b>332-338</b>
<b>Index.....</b>		<b>339-343</b>
<b>About the Author.....</b>		<b>344</b>
